UN Assembly Today Regarded as Crucial

UNITED NATIONS (Reuter). — Statesmen from all parts of the world were arriving here on Monday for Tuesday's opening of the General Assembly, which many observers believe may prove to be among the most momentous in U.N. history.

U.S., U.K. to Back Israel on Suez

POST Political Reporter

The right of all nations, including Israel, to free passage through the Suez Canal is expected to be reiterated on Thursday by the U.S. Secretary of State, Mr. Christian Herter, and the British Foreign Minister, Mr. Selwyn Lloyd, when they make their opening addresses before U.N. Assembly's general debate.

The speeches of the U.S. and British Foreign Ministers are expected to give the lead to representatives of many other maritime countries. This is the result of Israel's intensive diplomatic activity in many world capitals during recent weeks and of direct contact with U.N. delegations in New York.

Meir Speaks Next Week

Foreign Minister Golda Meir is to address the Assembly early next week, and the unrest in the Middle East caused by Cairo's renewed Suez blockade and the Arab boycott are to be one of Mrs. Meir's major topics.

The attitude of some of the major U.N. members during the first part of the general debate is likely to determine the final decision of the Israel delegation on whether to submit the Suez issue as an additional item on the Assembly's agenda. In the event that Israel's right for free passage through the Canal is given broad expression during the general debate, however, the Israel delegation may not press for the inclusion of a separate Suez item on the agenda. It is understood that the U.S. and Britain would like to see the Suez issue dealt with during the general debate only.

Day's Plan for Refugees Said to be Inadequate

UNITED NATIONS (INA). — U.N. Secretary-General Hammarskjöld's plan for integrating the Arab refugees in a large scale economic development programme in the Middle East "seems not to go far enough," U.S. Assistant Secretary of State Francis Wilcox said here on Monday in a preview of the American delegation's stand on various problems facing the General Assembly.

Referring to the refugee problem, he said the U.S. will, of course, be interested in all ideas which may be put forward at the Assembly. While we regard favorably certain elements of Mr. Hammarskjöld's plan, we are concerned that it does not seem to go far enough in providing the means by which adequate progress towards an ultimate solution could be made.

Anti-Nasser Slogans Over Baghdad Radio

ANTI-Nasser slogans were heard over Baghdad radio yesterday during a broadcast of celebrations to mark the holiday of the Birthday of Mohammed. Poems were also recited during the broadcast, self-styled as "leader of the Arab world."

UNEF in Financial Straits, Dag Warns

UNITED NATIONS (Reuter). — Mr. Dag Hammarskjöld, the U.N. Secretary-General, warned member governments on Monday that unless adequate financial arrangements were made for the U.N. Emergency Force, the world organization itself might soon become insolvent.

Israel Troupe Won't Play on Yom Kippur

NEW YORK (INA). — A spokesman for the Radio City Music Hall said on Monday that the Israel ensemble which is due to perform there shortly for a six-week engagement will be excused on Rosh Hashana and Yom Kippur.

During the performances from which the Israel numbers will be eliminated, he said, the permanent American company of the Music Hall Orchestra and chorus will appear.

The Tel Aviv Museum

mourns
the untimely death of

Eugene Kolb

Curator of the Museum

The funeral will leave the Hadassah Hospital,
Tel Aviv, today at 10 a.m. for the Kiryat
Shaul Cemetery.

The Knesset Presidium

mourns the death of

ISRAEL ROKACH

DEPUTY SPEAKER OF THE KNESSET

The public will pay its last respects on September 15, 1959,
between 10 a.m.-2 p.m. at Beit Disengoff, (Tel Aviv Museum),
16 Rothschild Boulevard.

The funeral will leave today at 3 p.m.

Cairo Resumes Press Attacks On Bourguiba

CAIRO (Reuter). — Egyptian newspapers on Monday accused President Bourguiba, of Tunisia, of an attitude "incompatible with international law and usage," and said moves to restore diplomatic relations between the two countries had been stopped. The report appeared in all newspapers with identical wording.

Relations between the U.A.R. and Tunisia were broken off last year after Bourguiba alleged that Egyptian army men were involved in a plot against him.

Egyptian newspapers said yesterday that contacts for a resumption of relations were taken up two months ago and President Bourguiba set no conditions, but they now accused him of "backing out of his word."

Many diplomats hoped for a dramatic gesture from the Soviet leader which would bolster U.N. prestige and at the same time contribute to a major thaw in the cold war. Disarmament, nuclear weapons tests and the topical issue of outer space shots were all suggested as offering possibilities for conciliation, which might lead to a breakthrough in the East-West deadlock.

Talks with Khrushchev

Some of the more than 50 Foreign Ministers here for the Assembly are expected to seek out the Soviet Premier for private talks during his visit, particularly at the dinner which Secretary-General Dag Hammarskjöld will give in Mr. Khrushchev's honor on Friday evening.

Mr. Selwyn Lloyd and Mr. Maurice Couve de Murville, British and French Foreign Affairs chiefs, are among those who will be on hand. Both Mr. Lloyd and Mr. Christian Herter, U.S. Secretary of State, are due to address the Assembly on Thursday, when the annual world affairs debate begins.

Histadrut Greets Guinea Congress

JERUSALEM POST BUREAU

TEL AVIV. — A cable of greeting was sent by the Histadrut Executive Committee to the Congress of the Democratic Party of Guinea which opened the same day in Conakry. The cable, signed by Mr. R. Barkat, acting Secretary-General of the Histadrut, was addressed to the head of State, Mr. Sekou Toure, and expressed the hope that the congress would contribute to the political and material development of a free Guinea.

Timna Investing Half A Million on Expansion

POST Economic Reporter

With the attainment of full capacity production, the Timna copper works are going ahead to expand by 20 per cent. in a dispatch from the Ministry of Industries, Mr. Eliezer Bodenskin, declared yesterday. He was reading a report on Timna before the working session of the Ministry of Development's Technological Advisory Board now meeting in Jerusalem.

The added investment aimed to boost capacity by 20 per cent. is only IL500,000, which the company will raise from its own resources. The expansion involves a minor change in the production line. Mr. Bodenskin said that the plant has been operating at full capacity for the past few months. Since it started production a year ago, it has turned out the equivalent of 15,000 tons of copper in the form of copper cement, a saleable concentrate.

The price of electrolytic (pure industrial) copper on the world market has remained stable for some time at \$650 a ton. This is well above the plant's estimated break-even price, Mr. Bodenskin said. He also told the Board that tests of the pilot-plant stage were being conducted on a water-saving device, and that the plant's engineers had succeeded in reducing by one-fourth the amount of sulphuric acid needed in the refining process.

The Advisory Board recommended that the field survey of the Timna area be completed as soon as possible and that work begin on enriching the iron ore mined there.

Negev to Get Atomic Power Stations Soon, B-G Says

By MARK SEGAL, Jerusalem Post Reporter

TEL AVIV. — The Prime Minister said on Monday that atomic power stations would soon be set up in the Negev. Mr. Ben-Gurion made this announcement in a speech outlining the tasks confronting the nation before a mass tenth anniversary rally of immigrants from North Africa at Habimah Hall.

The Prime Minister declared that the principle target of the State was to double the population. The additional two million would come from Jewish communities in Islamic and Asian countries, mainly from North Africa and from Eastern Europe. One million Jews must be settled in the Negev. He predicted that three-quarters would live by industry, mining, and shipping, and the rest from farming.

Cheap Power

Mr. Ben-Gurion declared that cheap power for the Negev settlers would come from atomic stations which would go up in the Negev in the near future, and from the utilization of solar energy. The diversion of the waters of the Jordan River to the Negev would be completed in the next few years, but this would be inadequate. Sufficient water supply would come from the successful experiments of our scientists in desalination of sea water.

The first survey of raw materials in the Negev conducted by the Defence Forces had shown that large deposits of basalt, copper, phosphates and iron existed, and others that "were not mentioned in the Bible." Mr. Ben-Gurion revealed. The resources of the Dead Sea still remained untapped, he added.

He said that the sources of energy would come from the development of the Negev. He visualized Eilat as Israel's greatest international port, overshadowing Haifa and Ashdod.

Referring to "The New York Times" report concerning the desire of Soviet Jewry to come to Israel, the Prime Minister said: "I am sure that the doors of Russia will open, but I do not know when."

Two Main Aims

The two main aims of the nation were: the final liquidation of the ma'abarot and of slum quarters such as those in Tel Aviv, Kfar Salmeh and Tel Hadya. He said that the first aim was to achieve it by the year 1960, and the second aim was to achieve it by the year 1965.

Mr. Ben-Gurion stated amid cheers.

Israel has shown that it has great scientific talent and it will become an international center of science and knowledge, Mr. Ben-Gurion said.

The main condition for achieving all these aims was to avoid splintering the nation. This would be attained by doing away with the present electoral system, which was copied from the most backward European nations, and which was a legacy of the provisions of the Balfour Declaration.

Mr. Ben-Gurion said that the abolition of communal barriers was still to be achieved. He told his audience that his audience, the settlers of Palestine in modern times came from Algeria in 1830. The Ashkenazim arrived only nine years later.

First Immigrant

Mr. Ben-Gurion seemed in excellent health and humor, and told his audience that "the first Jewish immigrant to the Land of Israel was the Patriarch Abraham, who was an Israel Jew."

Mr. Ben-Gurion was received with tumultuous applause, both in the evening when he delivered his speech and in the afternoon when he sat at the head of the table.

The Minister for Religious Affairs, Rabbi Y. M. Toledano, also received an ovation. He spoke of his Ministry's work in the field of the need for National unity. Other popular speakers were the Minister of Police, Mr. B. Shitrit and the former Director General of the Defence Ministry, Mr. Shimon Peres. Also on the platform sat the Chairman of the North African Settlers Association, Mr. A. Hassin.

Earlier, the President of Alliance Israelite in Israel, Prof. André Chouraqui, spoke of the cultural and spiritual heritage of North African Jewry. He was preceded by a series of settlers who spoke of their life in this country.

Ike, Khrushchev to Open Talks At White House Meeting Today

Nikita Carrying 'Lunik' Gift

MOSCOW (Reuter). — Prime Minister Khrushchev said here on Monday that he would "be happy to offer to President Eisenhower a replica of the pennant placed on the moon in the Soviet cosmic rocket No. 2," Tass reported.

The Premier, replying to messages wishing him good luck on his American tour, said the pennant had been given to him by the scientists who built and launched the moon-rocket.

Mr. Khrushchev added: "Let this pennant become a symbol calling for joint efforts of the Soviet and American scientists, creative work, in a struggle for better relations between our two countries for peace on earth among all nations."

"I wish to assure all our dear fellow citizens and all those who sent me friendly letters and telegrams in connection with my trip to the U.S. that I will, on my part, make all efforts to justify your hopes," Mr. Khrushchev said.

U.S. Soviet Chiefs See Israel Representatives

Monday's meeting in Washington between President Eisenhower and the Israeli Ambassador, Mr. Avraham Harman, and the reception given in Moscow by Premier Khrushchev for Mr. David Hachoen, M.K., and the other members of the 11-man Inter-parliamentary Union Executive, were the last in a series of international functions performed by the two world leaders before they meet in Washington this afternoon.

Diplomatic coincidence thus placed representatives of one of the world's newest and youngest states, but most ancient nations, to be among the last foreign statesmen to talk to the U.S. President and the Soviet Premier before their historic encounter.

Harman Presents Credentials to Ike

WASHINGTON (Reuter). — Mr. Avraham Harman, the Israeli Ambassador, on Monday presented his credentials to President Eisenhower noting that Israel follows with admiration and respect the American policy of peace and cooperation.

Mr. Harman told reporters after his 15 minute call on the President that he had a very pleasant conversation with the President.

"I am looking forward to this assignment very much indeed," the Ambassador said.

In an informal exchange of remarks, the President acknowledged the Ambassador's statement that Israel, the U.S. stood "as a mighty nation whose policies are based on the sanctity of human life and are directed to the Biblical vision of peace and fraternity among the peoples of the world."

The President said: "I am deeply grateful for the sentiments you have expressed about my country's dedication to peace and our efforts toward that end."

Indeed, no nation is too small to share in the great task of securing peace in the world. In pursuing this cause, both of our countries draw inspiration from a common spiritual heritage and are guided by our belief in the dignity of man and the right of all nations to enjoy freedom and independence."

Mr. Harman said he was sure that the U.S. Government would extend him "full cooperation in making your mission a successful one."

There had been "no false starts," they added.

U.S. Policy Chiefs Confer

WASHINGTON. — President Eisenhower held a final top-level strategy session on Monday for his historic meeting with the Soviet Premier, Mr. Khrushchev, who arrives today (Tuesday) carrying a new propaganda ace — the Russian feat of reaching the moon.

Mr. Eisenhower met for 45 minutes in his office with America's top diplomats and experts on Russia. The White House said they conferred on the American viewpoints to be put to Mr. Khrushchev.

The Capital was working feverishly to complete arrangements for greeting the Premier and his family when they arrive in a giant Russian TU-114 this afternoon.

The President will meet the Soviet party at Andrews Air Force base and drive with the Prime Minister 15 miles in a procession to Blair House, where Mr. Khrushchev and his family will stay.

These present at the meeting in the White House Monday included Secretary of State Christian Herter, Mr. Robert Anderson, Secretary of the Treasury, and Mr. Llewellyn Thompson, Ambassador to Moscow.

Typical Meeting

Mr. James Hagerty, White House press spokesman, described the meeting as typical of those "that the President and the people in the Government have prior to the visit of any foreign officials."

Mr. Hagerty said in reply to questions that he thought there would probably be times when President Eisenhower and Mr. Khrushchev would confer with only their interpreters present.

Ninety minutes have been set aside for their first formal talks at the White House late Tuesday afternoon. Reporters would be asked to forsake their usual practice of thronging the White House lobby when a foreign head of state is visiting because "we do not want a mob scene," Mr. Hagerty said.

Security Measures

Washington authorities have drawn the tightest security net ever prepared for a foreign visitor. When Mr. Khrushchev leaves the capital on Thursday for New York and the rest of his day tour, an estimated 15,000 policemen, detectives, national guardsmen and security agents will be concerned with the task of protecting him.

Despite the elaborate safety precautions, American officials were holding their breath in case any incident should mar the visit.

In New York, Vice-President Richard Nixon said that some good might come out of the visit because the Soviet leader "believes what he sees far more than what he hears." But it would be "incredibly naïve" to think that by treating Mr. Khrushchev well "we will make the differences between us eventually melt away."

AFTER MIDNIGHT

Viscountess Samuel, 82-year-old wife of Viscount Samuel, died at her home in London last night. She had been ill for some time. Viscount Samuel, one of Britain's leading Jews, was the first British High Commissioner to Palestine from 1920-1925.

Soviet Moonshot Widely Hailed

LONDON (Reuter). — The world on Monday hailed the success of the Soviet "Lunik II" as a major step towards a "space civilization," although many a scientist claimed they were "not surprised" by the Russian achievement.

But there was no doubt that apart from her scientific success, the Soviet Union had scored a great propaganda victory on the eve of Mr. Nikita Khrushchev's departure for the U.S.

Meanwhile, congratulations on the Russian achievement on Monday poured in from points throughout the world — and in France it led to the coming of a new word: "alunir," an adaptation of "lunar," meaning "to land."

Mr. Harold Macmillan, British Prime Minister, Monday night sent a message to Mr. Khrushchev congratulating him on the achievement.

In America, the National Aeronautics and Space Administration was responsible for American scientific space research — congratulated Soviet scientists "on their success in this forward step in the exploration of space."

The President and Mrs. Ben-Zvi on Sunday entertained at their home a party of 100 guests, including the members of the Weizmann Institute, the Weizmann Clubhouse, where he is participating in the Symposium on the Functional Component of Cancerogenesis, and puffed at his pipe.

"I rise very early in the morning," he said reflectively. "At five a.m. When I look out of the windows of this building at that still hour, I can understand why thousands of years ago, man meditated upon his soul in these surroundings. I was here a short while before the State came into being—there was much tension then. Now everything seems purposeful and calm."

There were similarities with India, but of different temperaments. Your people take greater chances and more risks. But perhaps our basic approaches and aims are the same."

Dr. Khanolkar, pipe required attention. While dealing with it, he answered the routine queries. His voice is low and his English flawless. He is 64 years old, a member of the British Mandate—there was much tension then. Now everything seems purposeful and calm."

President Ben-Zvi on Monday received Mr. and Mrs. Arthur Horwich, of Chicago. Mr. Horwich is General Chairman of the Bond Campaign in Chicago.

The Minister of Finance, Mr. Levi Eshkol, on Monday received in his office in Jerusalem Mr. and Mrs. Horwich, and Mr. Kanter, a member of the Manhattan Campaign Cabinet of Israel Bonds, and Mrs. Kanter.

Mrs. Ogden Reid, the wife of the American Ambassador, yesterday visited the Family and Community Health Center at Kiryat Hayael and other Ha-Tanach projects in Jerusalem.

The 24 leaders of the U.J.A. Women's Division, who arrived on Sunday for their annual Research Mission in Israel, visited the "Syngewski Center" ORT Technical High School in Tel Aviv on Monday.

Superintendent Shalom Yarkoni, head of the Tel Aviv Criminal Investigation Division, has been promoted to Chief Superintendent, and Inspector Karol Slinger, head of the Haifa Criminal Investigation Division, has been promoted to Superintendent.

Kolb, T.A. Museum Curator, Dies

Eugene Kolb, Curator of the Tel Aviv Museum, died of a heart attack in his home in Givatayim on Monday morning. He was 61. He leaves a wife and a daughter, who is now on her honeymoon, in France. The funeral procession will leave the Municipal Hospital at 10 a.m. today.

Eugene Kolb was born in Hungary in 1886 and studied in the Universities of Munich and Vienna. He was active in artistic circles in Budapest and edited several art albums and encyclopedias. During the Nazi occupation he was imprisoned together with his family in the Bergen-Belsen concentration camp.

He came to this country in 1946 and served as the art critic of "Al Hamishmar." In 1951, he was appointed advisor to the Tel Aviv Museum and shortly afterwards became Curator.

He was the gentleness of Eugene Kolb that first impressed one who knew him. He was not too far off when I remember that he carried his crutches with him. He was the lowest and his contribution the most modestly made, and it was sometimes only later that one fully realized how understanding had been his criticism, and how profound his analysis of a problem.

An easy man to be with, he was not too far off when I remember that he carried his crutches with him. He was the lowest and his contribution the most modestly made, and it was sometimes only later that one fully realized how understanding had been his criticism, and how profound his analysis of a problem.

A.J.C. REPORT—

Russian and Polish Policies Compared

NEW YORK. — A "startling contrast" in the conditions of Jewish life in Soviet Russia and Poland was described here by Mr. Will Maslow, General Counsel of the American Jewish Congress, who led a group of 25 A.J.C. leaders on a tour of the two countries last month.

"To all intents and purposes the Jewish community of Russia no longer exists," Mr. Maslow said in a report to a quarterly meeting of the A.J.C. National Administrative Committee.

"The sole remnant of a once great Jewish community consists of a few solitary synagogues attended by a handful of old men and women, and within 20 years or less even these will be gone," he said. "This is the bitter fruit of the Soviet effort to obliterate organized Jewry in the U.S.S.R."

In Poland, Mr. Maslow reported, Jewish synagogues have been rebuilt, Government-sponsored Jewish schools have been opened and a Jewish theatre is flourishing. In Soviet Russia, many synagogues have been closed, Jewish schools are non-existent and the Jewish theatre has been liquidated, he said.

In Poland, a Yiddish newspaper — "Folkshtime" — is published weekly. No Yiddish newspaper is published in the Soviet Union, and even "Folkshtime" is banned, Mr. Maslow said.

Teaching of Hebrew

In Poland, a number of monuments have been erected to the nearly 3m. Polish Jews murdered by the Nazis. In Soviet Russia there is not a single monument to the Jewish victims of Hitlerism.

In Poland, Jewish religious instruction — including the teaching of Hebrew — is carried out with Government permission in a number of provincial schools (Talmud Torah) for children. In the Soviet Union, no religious instruction is permitted to any child, and Hebrew is considered a "counter-revolutionary language," Mr. Maslow said.

In Poland, Jews are encouraged to make a new life for themselves in their own country, to emigrate to other countries, to Israel or other countries. In the U.S.S.R. the Jews are classified as a separate nationality, but are denied the same facilities which other cultural and religious minorities are granted, and no emigration is permitted.

SEARCH. — The 60 passengers on a French aircraft arriving from New York were searched by French police at Orly airport on Monday after the air hostess had reported the loss of \$80 and a stewardess had reported the loss of a box. The money was not found.

Encouraging Young Talent

Kolb's respect for creative talent was deep and he always felt strongly that the museums of Israel, and his own museum of Tel Aviv in particular, must find space to show the works of Israeli artists and he was always ready to encourage the gifted young and the gifted old.

I remember that even in the days when he was working as an art critic he used to say, "Never be contemptuous of an artist's efforts; maybe there is the seed there of something genuine and beautiful which should be encouraged." Only for the merely facile he had no time.

An excellent lecturer, Kolb loved to talk to young people and he spared no effort to improve his already fluent and lucid Hebrew so as to make what he had to say the more easily accessible to them.

In Kolb was full of plans until the last and among the last things he undertook was the selection of works by six young Israeli painters for inclusion in an exhibition to be held shortly in Paris which he himself was due to attend. He was spending what little time he had left in his remarkable contribution to Israel Art for the History of Jewish Art, for the Encyclopedia which is soon to appear and his unfinished manuscript arrived at the printers on the very morning of his death.

The passing of this gentle spirit is a great loss to art and to artists in Israel, and to all who knew him.

Election in Nazareth By Community

Jerusalem Post Reporter

NAZARETH. — Despite the efforts of various political parties, there is little likelihood of the municipal elections being fought on a party basis in this town.

It is generally virtually certain that candidates for the Town Council will be nominated on the basis of community representation.

The only party candidates are likely to be the Communists. The majority of potential communal representatives are associated with Mapai. Only one Mapai-associated candidate is likely to stand.

As a result of Abud Ha'avoda's failure here in the recent Histadrut elections, it is not likely that that party will sponsor any candidate.

Mayor Amin Jarjoura, who represents the Greek Orthodox community, will not stand for re-election, it is reliably learned. Former Mayor Yussuf Fahum, a Moslem, is the most likely candidate for the post. If he declines to run, Mr. Suhail Kanj, a Moslem Councillor, or Mr. Assad Kardash, a Greek Orthodox merchant, both of them public figures, may be nominated.

In the Supreme Court Sitting as Court of Civil Appeal

Before the President (Justice Olshan), Justices Agron and Goltz.

Arye Insurance Co. Ltd. v. Meir Wasserman.

Terminology in Insurance Policy May Be Interpreted in Accordance With Legal Precedents

The Supreme Court dismissed an appeal against a judgment of the Tel Aviv District Court delivered on March 16, 1959 (in C.A. 3702/58).

Meir Wasserman, a building contractor was insured with the Arye Insurance Company against any liabilities arising from injuries to his workers. The insurance policy contained a clause to the effect that the company would be responsible for any liability incurred as the result of physical injury to a worker in Mr. Wasserman's direct employment but that they were not responsible for any liability incurred by sub-contractors (clause 3).

A worker employed on laying the roof of one of Mr. Wasserman's buildings was injured in the course of work. He belonged to a group of workers which had agreed with Mr. Wasserman to carry out the work on the roof at a fixed rate per metre. This sum covered both the cost of the material and wages.

The insurance company denied their responsibility for the damages awarded the worker as they maintained he had not been in Mr. Wasserman's direct employment but had been an independent contractor. The dispute was submitted to arbitration.

The arbitrator concluded that as there had been no definition of "worker" and "contractor" in the insurance policy, the definitions laid down in various legal precedents should serve as his guide.

In relying on Justice Silberg's judgment in C.A. 47/48 (Psakim 2/48) he held that the injured worker had been under Mr. Wasserman's control and had thus been a "servant" and not an independent contractor. He held further that the injured worker had been in the direct employ of Mr. Wasserman.

Judgment given on July 30, 1959.

VISIT. — Professor Antonio Segni, the Italian Prime Minister, and Foreign Minister Giuseppe Pella will leave today for Istanbul on a visit to Turkey. It was officially announced in Rome yesterday.

It is generally virtually certain that candidates for the Town Council will be nominated on the basis of community representation.

The only party candidates are likely to be the Communists. The majority of potential communal representatives are associated with Mapai. Only one Mapai-associated candidate is likely to stand.

man in accordance with C.A. 112/50 (Psakim Mibodim 3/41), in which it was decided that a contract of labour between a group of people and an employer creates a direct relationship between the employer and each member of the group of workers. In short, the arbitrator concluded that the insurance company should indemnify Mr. Wasserman, Judge Harpaz of the Tel Aviv District Court ordered the arbitration award to be enforced against the insurance company's objections that there was a flaw on the face of it.

The latter appealed against this decision to the Supreme Court. Mr. L. Feldman appeared for the appellants and Mr. Z. Luria for the respondents.

Judgment

The President, who delivered the judgment of the Supreme Court, Justices Agron and Goltz concurring, said that in accordance with the appellants' Counsel the flaw on the face of the arbitration award lay in the fact that the arbitrator had ignored the terms of clause 3 of the insurance policy and for that reason had failed to conclude that the injured worker belonged to a group of workers which was acting as sub-contractors to the respondent.

But, the President continued, it is clear from the arbitration award that the arbitrator had not ignored this clause at all. For he has held that the injured worker was, in fact, in the direct employ of the respondent and not in that of the group.

As to the appellants' argument that even if it were conceded that the injured worker had been an employee of the respondent, he still did not come into the category of those employees covered by the policy as he was more in the nature of a sub-contractor within the meaning of the policy, the President held that their Counsel had overlooked one factor: that just as there was no definition of "worker" in the policy so was there no definition of "contractor." And in the absence of any such definition in the policy which the appellants had drafted the arbitrator had been entitled to seek it in the intention of the parties and had been entitled to presume that it had been the intention of the parties that the terms "worker" and "contractor" be interpreted in accordance with the law as reflected in judgments.

The appeal should therefore be dismissed with IL150 costs.

Judgment given on July 30, 1959.

The Municipal Management decided in the morning that the Council will meet in the afternoon of Monday, May 14. Mayor Levannan and Rabbi I. Y. Untermann, the

Teachers Union Decries Parental 'Terrorization'

Jerusalem Post Reporter

TEL. AVIV.— This Thursday has been proclaimed a "day of protest" by the Teachers Union, against what it termed the "terrorization of the teaching profession by disgruntled parents."

According to a decision adopted at a meeting of the Teachers' Union Centre at Beit Hamoreh here on Monday, all teachers throughout the country will convene in their schools at 11:45 a.m. on Thursday to discuss the situation.

grammes were cancelled at the Tel Aviv Jubilee Exhibition yesterday. The cancella-

tion yesterday. The cancellation of the funeral is in effect today as well.

Funeral Route

The funeral will go from the Museum along Allenby Road to the cemetery in the old Town Hall, then turn to the cemetery, which has been reserved for the past 20 years for the remains of the city's dead.

The details of the funeral were worked out by the Knesset Presidium which met under the chairmanship of Mrs. Ben-Zion Idelson.

This morning, Mayor Levanon was also present.

Mayor Haim Levanon has all the shopkeepers along the route to close down during the funeral. Flags flew

Executive Council into meeting at 6.30 p.m. today. It is expected that the Council will establish a fitting memorial in Rokach's name.

Among those who called on Mrs. Esther Rokach, yesterday, were members of the Knesset Presidium, Mrs. Idelson, Mr. H. Rubin and Mr. A. Ben-El-Mechaie.

Mr. Yitzhak Rokach, brother of the deceased, who was to represent Israel at a citrus growers' meeting in Palermo, arrived in Jerusalem on Monday night. The younger daughter of Mr. Israel Rokach arrived yesterday.

It is expected that she has gone to study. She is not expected to attend the funeral.

Cool, Humid Weather Hits Potash Production

BEERSHEBA. — Apprehension that potash production this year may drop to the year's level as a result of unseasonable coolness and relatively high humidity has been expressed by officials of the Dead Sea Works.

The company's spokesman, Dr. Enzo Etzioni, told a press conference in Beersheba Monday that the average summer temperature this summer was three degrees Centigrade lower than the year's average and the average relative humidity was 10 per cent higher than the year's. These two factors may

Tributes by President R. C.

Many tributes to Israel Rokach have been sent to him since his shocking public figure.

"I was shocked at the bitter news of the death of Israel Rokach, Deputy Speaker of the Knesset and the longtime captain of the Israel Tel Aviv to whose growth he dedicated his talents," said the late Yehoshua

the People of Tel Aviv, mourning the untimely passing of the Deputy Speaker of the Knesset of Tel Aviv's outstanding sons and one of her foremost builders."

Shazar Eulogy

Mr. Rokach was eulogized by the Chairman of the Jewish Agency Executive

The evaporation of the water in the pans and in settling of the carnallite with the raw material from which potash is made. The company had planned to produce 135,000 tons of potash this year compared with last year's total of 107,000 tons. Unless the weather is markedly improved by November in September and October, production may well fall to about 110,000 tons.

izhak Ben-Zvissaid on Monday, in a tribute to the late Deputy Speaker of the Knesset.

"Israel Rokach, who was one of the Yishuv's leaders for a long time, and was a member of the Knesset Presidium, He said

1. Yehoshua Rokeach had played a leading role in the revolutionary movement in the State of Israel. Rokeach was the symbol of the Tel Aviv, Mr. Shazar was decorated.
